

**Can Electronic Procurement Improve Infrastructure Provision?
Evidence from Public Works in India and Indonesia**

Disclosure Statement for Yusuf Neggers

This project received financial support from the International Growth Centre (IGC), based at the LSE and Oxford and supported by the UK DfID.

I have received a research grant from The Weiss Family Program Fund (in support of my work on election officer identity in India). That grant is not connected to this research.

No one had the right to review this manuscript prior to circulation.
